An activation key will be sent to your email address and must be entered to confirm registration.

The screenshot shows a web page titled "Activate". At the top, it says "Your account has been created!". Below that, it instructs the user to check their email for an activation key, noting that some providers may mark it as spam. There is a blue link for "Resend Activation Email". The user is prompted to "Enter your activation key to continue." There are two input fields: an orange one labeled "EMAIL" with a "Change Email" link, and a blue one labeled "ACTIVATION KEY". At the bottom is a large "Activate" button with a right-pointing arrow.

Once you have activated your account you will be taken to the forum. Notice the Welcome in the top right corner with your name on it. Any time you wish to participate in the forum you can now login.

We would prefer that you update your profile to include a picture so that we can “see” you during your conversations. To update your profile select the Profile link.
